PROFESSIONAL SUMMARY

Computer Science student and aspiring **Full Stack Web Developer** with hands-on experience in **PHP, MERN Stack, MySQL, WordPress, PostgreSQL, HTML, CSS, JavaScript, Bootstrap, and Git/GitHub**. Passionate about building responsive, scalable, and database-driven web applications with clean, maintainable code.

Experienced in developing academic and personal projects using modern web technologies while leveraging AI-powered tools for debugging, optimization, and productivity while maintaining a strong understanding of every implemented solution. A quick learner with strong problem-solving abilities, eager to contribute and grow in a professional software development environment through an internship or junior developer role.

TECHNICAL SKILLS

Programming Languages:

PHP | JavaScript | SQL

Frontend Development:

HTML5 | CSS3 | Bootstrap | Responsive Web Design | React.js (Basic)

Backend Development:

PHP | Node.js (Basic) | Express.js (Basic) | CRUD Operations | Session Management | AJAX (Basic)

Databases:

MySQL | PostgreSQL | MongoDB (Basic)

Tools & Technologies:

Git | GitHub | VS Code | XAMPP | phpMyAdmin | WordPress

Concepts:

Object-Oriented Programming (OOP Basic) | MVC Architecture | REST API (Basic) | Database Design | Problem Solving

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University: **Abdul Wali Khan University Mardan**

Currently in **6th Semester**

Expected Graduation: **2027**

PROJECTS

Online Voting System

Developed a secure online voting application with role-based authentication for administrators and users. Implemented candidate management, vote casting, and result management using PHP and MySQL.

Technologies: PHP, MySQL, JavaScript, AJAX, Bootstrap

College Management System

Designed and developed a complete management system to handle student records, faculty management, courses, and administrative operations with full CRUD functionality.

Technologies: PHP, MySQL, Bootstrap

Online Quiz System

Created a dynamic quiz platform featuring automatic scoring, countdown timer, question management, and an admin dashboard.

Technologies: PHP, MySQL, JavaScript

Portfolio Website

Designed and deployed a personal portfolio showcasing projects, technical skills, and contact information with a responsive design.

Technologies: HTML, CSS, JavaScript, Bootstrap, Vercel

EXPERIENCE

Full Stack Web Developer (Academic Projects & Self-Learning)

2025 – Present

- Developed multiple full-stack web applications using PHP and MySQL.
- Built responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Implemented CRUD operations, authentication, and session management.
- Practiced version control using Git and GitHub.
- Explored MERN Stack fundamentals, including React, Node.js, Express.js, and MongoDB.
- Worked with WordPress for website development and customization.
- Used AI-powered tools to improve development efficiency while maintaining complete understanding of the codebase.

KEY ACHIEVEMENTS

- Developed **4+** full-stack web applications.
- Built responsive and database-driven web solutions.
- Strong understanding of frontend and backend integration.
- Experience using Git and GitHub for version control.
- Continuously improving skills in PHP, MERN Stack, and WordPress.
- Passionate about learning new technologies and software development best practices.

Languages

- English (Professional Working Proficiency)
- Urdu (Native)
- Pashto (Native)

Soft Skills

- Teamwork
- Communication
- Problem Solving
- Time Management
- Adaptability
- Analytical Thinking
